Although the weather observer gives only 99 as the maximum marked during the day, there are people who will contend that 110 was reached. We felt hot enough without any reference to thermometers; in fact, we did not wish to witness the fearful straining they were subjected to. The Quickstep, Captain Ed Postal in command, came in yesterday morning rom White river with a good trip of freight and people. She was turned over yesterday to her new owners. Captain Stack Lee will have her repainted and put in complete running order prepara-

The Illinois went out yesterday evening with a fine passenger trip, and Joe Speers and Owen Jemison were as happy as king-bees. They know how, and will exert all their talents to make a trip on the Illinois enjoyable, and now that they have the addition of the brass and string-band to her comforts, the lilinois will rapidly become among the most comfortable packets on the river,

We hope the placing of the le-viathan in the water will be effected without accident or hindrance. The White came in yesterday morning

from the lower coast with a good trip, as usual. She discharged her cargo and went to the bank to be repainted and overheuled for the fall season. The George W.
